

Andi Robin Halgren Semler

www.andisemler.me

andirobinsemler@gmail.com

I have been interested in making websites and apps since I was young. I am a self taught developer, passionate about software and programming. I care a lot about the products I build and the code behind, using the best practices and modern technologies.

Skills

- Programming languages and frameworks: HTML, CSS, JavaScript (TypeScript, Node.js), React and React Native, Go, Dart and Flutter, Java, Objective C
- Building APIs using REST, GraphQL and gRPC
- Testing using continuous integration
- Responsive Design and optimization for phones and tablets
- Version Control: Git (GitHub, GitLab)
- Design Tools: Sketch, Figma, Photoshop, Adobe Xd
- Cloud Platforms: GCP, DigitalOcean
- Building with containers using Docker and Kubernetes

Experience

Freelance Web Developer

2015 - 2018

I have created websites for various people and have also helped other developers to improve and optimize sites.

Example: <http://frilyd.dk>

STU Education

Individualisterne ApS, 2016 - July 2020

Individualisterne ApS is a part school and part IT business. While there I have been studying to improve my IT skills while at the same time building websites, mobile apps and other solutions for our customers.

Open Source work

2016 - Current

I have open-sourced a variety of projects on my GitHub profile for both the web, back-end servers and mobile apps.
